1. At a meeting with TICRIBAGE/1 on 3 March 1964, the following information was provided regarding Soviet plans and preparations for the 1964 travel seasons:

a. At a 17 February cocktail party in honor of the departure of IMPURIST representative, Pavel SOLOVY (201-174915), T/1 overheard a Swedish citizen querying Counselor of Embassy, Anatoliy Anatoliyovich ZHITKOV (201-22914) as to the possibility of tourists entering in the USSR this summer. ZHITKOV pled ignorance as to whether the Soviet Government would allow individuals to bring their cars into the USSR, but attempted to discourage the questioner from traveling in this mode. ZHITKOV then departed from this task and stated that "unofficially" he doubted if the Soviet Government would give permission due to the inadequate and inefficient number of service facilities along the major routes as well as the difficulty in repairing foreign makes of autos and providing the required parts and service for foreign cars.

b. T/1 also provided a copy of a letter received from IMPURIST on 8 February (and signed by B. ZAGLADIN and V. KURECHIKOV) stating, in reply to a letter of inquiry from T/1's employer, that

"With regard to your letter of January 22, 1964 on the question of auto tourists in the season of 1964, please be informed that this matter is under consideration. As soon as all the details are ready you will be given, in due time, the complete information."

c. In recent conversations regarding travel to the USSR with Vasvolod Yevgeniyevich KOSHEV (201-203700), KOSHEV stated that there are travel restrictions placed on Soviet born citizens who return to the USSR to visit relatives. With reference to the travel of US citizens to the USSR, KOSHEV indicated that visas for them are not issued automatically, but that the Embassy must examine the passport and check it against a master list (Commonly a type of "black list.") in the Embassy. Moreover, the issuance of all visas to former Soviet citizens must be decided in Moscow as well as the issuance of visas to those who have resided (and then departed) in the USSR for a prolonged (six) period of time. Also, if permission is granted to a foreign citizen to take an automobile into the USSR, this decision is made in Moscow and not at the Soviet Embassy in the country of application. The normal visa processing of foreigners takes approximately 60 days in Stockholm with the exception of Swedish businessmen or other personalities of special interest. Such personalities as well as others (unspecified) can be processed directly by the Embassy at Stockholm without referral to Moscow.

d. As previously reported, the IS LAMMEL will not be used on the Nordic voyage to Stockholm this year. It will be replaced by the IS BRUSNAYA, a ship built circa 1951-52 and believed to have been used in the Cuban traffic.

e. In a cable received by T/1's employers from IMPURIST, Moscow, 23 March the following was stated:

"IS YOUR LETTER FEBRUARY 10 MISS GOSPIRA. UNABLE RECEIVE YOU MARCH 3. DO NOT HAVE TRAIN MOSCOW-MARKODKA. ADVISE TRAVEL MOSCOW-MARKODKA BY PLANE, MARKODKA-MARKODKA BY TRAIN. PLEASE INFORM URGENTLY."

T/1 observed that the origin of the cable was a mystery inasmuch as they had not requested any such travel for a "Miss GOSPIRA" and in fact had never heard of her before. The information contained in the cable, however, appears.

that travel from Moscow to Rakhovka is not being permitted by the Soviet authorities nor is train travel between the cities of Moscow and Rakhovka allowed at this time.

2. Also provided the sailing schedule for the Baltic State Steamship Lines vessels on the Leningrad-Stockholm line as well as the Leningrad-Stockholm-Gothenburg-Copenhagen-London-Le Havre passenger route sailing. The ships in service for these ports will be the S/S BALTICA, S/S DANIELA YERZKAYA, M/S ESTONIA, and the M/S MARIYA ULYANOVA. We are attaching three schedules of these routes as provided by T/1.

3. We are also attaching, for possible Headquarters interest, a copy of the new Czechoslovakian travel regulations which are somewhat liberalized. The most noticeable departure in the regulations is the expeditious manner in which a visa can be obtained for travel in Czechoslovakia. According to the new regulations a visa can be obtained in as little as 48 hours while, if required, overseas tourists can obtain visas directly at the border. The tourist is also able to cross the Czech border now at 33 different locations.

4. As a final attachment to this dispatch, we are forwarding a letter of complaint, written by Lars-Gunnar SAMUELSSON, an employee of The Central Laboratory of the Swedish Cellulose Industry, regarding the experiences encountered by Subject on his August 1963 trip across the USSR. The letter is a somewhat amusing, at least from the vicarious viewpoint, recitation of the frustrations, burlings, and intentional and unintentional pitfalls confronting the traveler at the mercy of INTURIST.

Re: Lars-Gunnar Samuelson's journey from Stockholm to Helsinki
August 14, 1953

In August 1953, Nyman & Schultz was consulted by me to arrange a journey from Stockholm to Tokyo via Moscow, Nahodka and Yokohama. Everything concerning the journey was arranged by Nyman & Schultz and hotel reservation in Moscow and seats on trains and aeroplane were confirmed by the Russian Intourist. Everything (tickets on boats, trains and aeroplane, hotel in Moscow and meals in Russia) was paid to Nyman & Schultz before the departure from Stockholm; "soft class" on trains in Russia and first class on the boat from Nahodka to Yokohama.

Unfortunately the journey was not made according to schedule.

The railway journey from Helsinki to Moscow was very pleasant and quite acceptable. Maybe it could have been valuable to know that no food is served on the train, which takes rather a long time. However, tea was served two or three times by the guard at a cost of U.S.\$ 2.

Nine o'clock local time next morning the train arrived in Moscow, and I was taken by car to Hotel National. I spent the night in Moscow and, according to the schedule, I went to the Intourist office at 12 o'clock the following day. A young woman informed me that the flight to Chabarovsk was delayed, and that I had to stay in Moscow another 8 hours. At 6 o'clock I should return to the Intourist office and take the car to the airport.

At 6 o'clock I returned to the office. This time the young woman informed me that there was no flight to Chabarovsk, and that I had no possibility to go to Japan via Chabarovsk-Nahodka. I was suggested to go via Copenhagen. Unfortunately neither Intourist nor I could pay that ticket. After some discussion the young woman called the airport to see if there was any other flight to Chabarovsk. Since I could not get this information at the Intourist office, I went to the airport, and there I was informed that there

was a flight to Chabarowsk at 6 o'clock in the afternoon, still in time for the train to Nahodka. I sat down in the plane. Nothing happened and after one hour somebody told us that the aeroplane could not leave until 8 o'clock next morning.

I had to stay at the airport until next morning at 8 o'clock. I then left (according to a representative from Intourist) to go to the train to Nahodka. Stops were made at Irkutsk, Khatanga, and Chabarowsk in the night, and arriving at the airport at the morning who met me at the airport. Only some time later I was taken to a hotel and had to stay in Chabarowsk until the afternoon the following day. I shared room with two other persons. I was asked to go on to Nahodka because there would be no other way to go from there to Japan. Next afternoon I left for Nahodka. As I refused to pay the hotel charge, the stay in Chabarowsk did not cost me anything, excepting the food.

The train to Nahodka was a "local" one and arrived too late at Nahodka to take the boat to Yokohama. I do not think that the advised route was the best. Another representative from Intourist met me at the station and advised me a hotel (one room for two persons). In spite of the telegram from Chabarowsk to Intourist in Nahodka nothing was arranged for my departure to Japan. According to information in Chabarowsk there should be many possibilities to go by freight ship from Nahodka to Japan.

Unfortunately I was not allowed to enter the harbour the first day in Nahodka. The Intourist representative, however, promised to do everything to arrange for my departure. When he returned from the harbour he had not succeeded.

The following day I was allowed to accompany the Intourist man into the harbour. Fortunately, we immediately found one Japanese ship, which had been in the harbour for a few days and would finish its loading next night. After a short discussion with the captain I was allowed to go by his ship to Fushiki in Japan.

To avoid trouble I paid my part of the room charge in Nahodka, but since only one bill was written and given to another person, who stayed in the same room I have no check for that expense.

I arrived in Japan 2 days delayed. Thus 2 days of my visit to Japan were lost.

The ticket from Moscow to Yokohama, already paid to you, was not used.

The reservation made in Moscow could not be cancelled. The telegram from Nahodka did not, for some reason, arrive in Tokyo in time.

In spite of the very interesting journey through Russia and the opportunity to see a lot of things, I must afford to pay the extra costs during this journey. Therefore I request that you pay back the following amount of money to me.

The reason why I send you this letter so late is that I returned to
 Sweden in December, and that the representative from Intourist in
 Tokyo had no responsibility of my case.
